CHAPTER 1

Platform Support

Supported Platforms

NX 10.0, 11.0, 12.0, 1872, 1926.

Other version on request.

Server Installation of Aras Innovator 12:

(Aras Innovator 11 and other service packs on request)

| | |
|------------------------------|--|
| Aras Innovator Server 12 | Windows Server 2012, Windows Server 2016 |
| Aras Innovator Server 12 SP9 | Windows Server 2012, Windows Server 2016 |

T-Systems licman20 license manager:

| | |
|--------------------|--|
| T-Systems licman20 | please refer to the licman documentation |
|--------------------|--|

CHAPTER 2

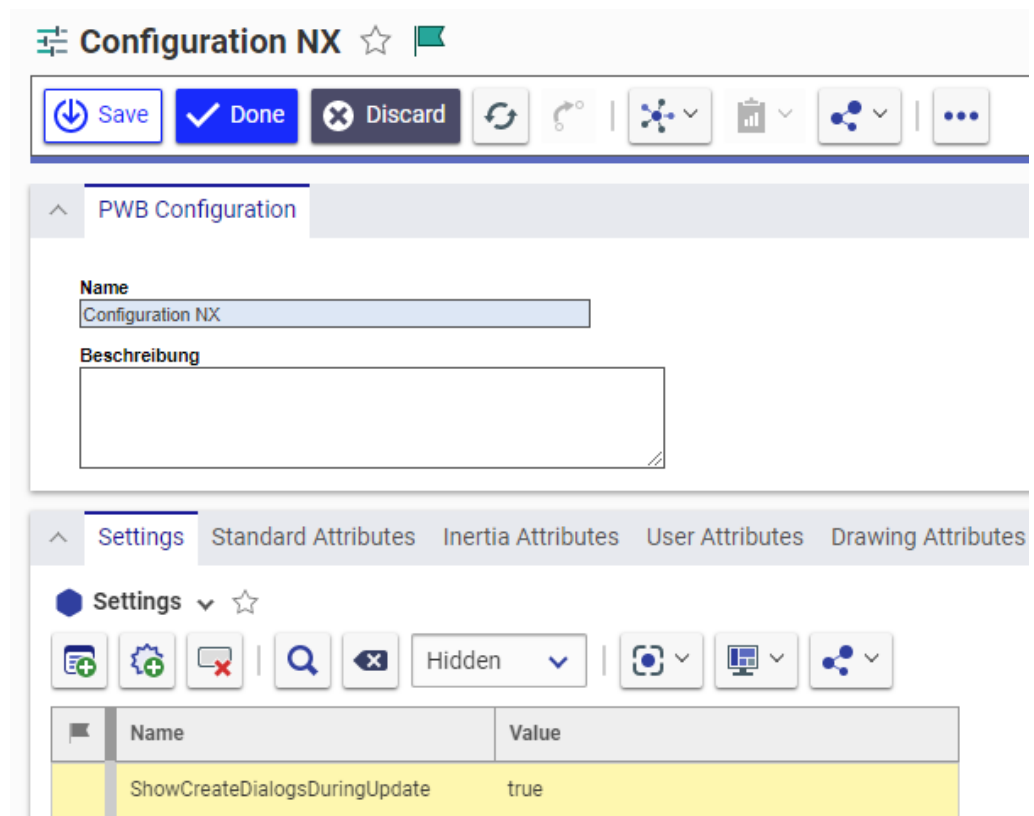

Functional Changes

Showing Create Dialogs for new CAD Documents

It is possible for the designer to type in the values of PDM attributes for new NX CAD documents.

Configuration

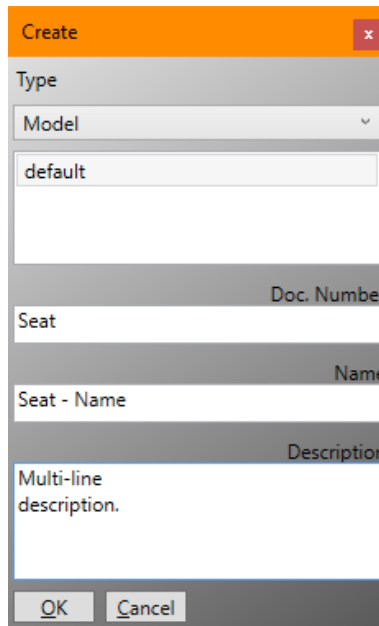

If the server-side configuration setting “ShowCreateDialogsDuringUpdate” is set to the value “true” then the Create dialogs are shown in the update process.

Picture 1: “ShowCreateDialogsDuringUpdate” configuration setting

Usage

Depending on the configuration a “Create” dialog can be shown to the user where it is possible to enter values of PDM attributes, like document number or description:

Picture 2: "PDM Create" dialog of a new model file

The values in the dialog will be written into the attributes of the newly created CAD document in PDM.

CHAPTER 3

Environment and Configuration Variables

Server-side Configuration Variables

| Configuration variable | Values |
|-------------------------------|--------------|
| ShowCreateDialogsDuringUpdate | true / false |
| | |
| | |
| | |

Variables PWBSchema file configuration

CHAPTER 4

Data Model Changes

The following data model changes are introduced in this release of the PDM Workbench.

Added Classes

None.

Added Forms

None.

Changed Server Methods

CHAPTER 5

Bug Fixes

Version 13.0.0
